

PhD Scholarships Call for applicants 2017-2018

In 2017, the PhD program in Integrative and Clinical Neurosciences at Aix-Marseille University will grant three PhD scholarships to excellent Master graduates students from top ranked non-French universities.

The selection process will include the following steps.

1. CALL FOR APPLICANTS

- Applicants will have to select and rank two out of the 22 proposed research projects and motivate the reasons of their choice.
- The list of the 22 research projects, a guideline for student and templates for recommendation letters must be downloaded on the following site: <http://neuro-marseille.org/en/phd-program-en/call-for-applicants/>
- Applications should be sent before **May 21st, 2017** at midnight (French time).

2. INTERVIEW

- The selection committee will shortlist 10 students that will be individually interviewed by skype early July.
- The final decision will be known shortly after the interviews and the three successful candidates will start their PhD studies between October and December 2017.
